4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection

Describe IT facilities including Wi-Fi with date and nature of updation, available internet bandwidth within a maximum of 500 words

Response:

The organization regularly refreshes its IT infrastructure using a variety of methods. The college provides all the necessities, including a fully functional surveillance system, if needs a generator backup power source, well-designed furnishings, antivirus software, and high-speed internet connections.

There is enough no. of PCs at the college and updated with the most recent versions on a laptop with internet connectivity. The LCD facilities are linked to the PCs. Faculty members use their expertise to upgrade and fix the aforementioned IT equipment in accordance with maintenance requirements. However, computer specialists and service providers are recruited for replacement and upkeep in cases of significant disorder and damage.

For the purpose of maintaining and using computers, actions including routine antivirus installation, formatting of computers based on corrupt operating systems, and swapping out the hardware of outdated computers for new ones are performed. The website was made by the college, however timely upkeep and updates are provided.

LAN infrastructure:

The college is connected to a sufficient Bandwidth connection of Internet from the BSNL service provider for student's academic excellence.

Wi-Fi infrastructure:

In addition to the office, the college has a single configured Wi-Fi router that may be utilized to deliver Wi-Fi at different locations throughout the campus as needed. This facility is kept up to date on a regular basis, and the institution guarantees that all enrolled students and staff can take advantage of it. However, we use computers and personal mobile phones for office work and instruction when we need internet access.
