5.4.1 There is a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services

Response:

The college's alumni association is active. The alumni organization has been active in the college's advancement. The registration process has improved the relationship between the college and its graduates. The association's members are delegates from many fields.

The Alumni gather on a regular basis for meetings. During the meeting, topics pertaining to college development are covered. The most effective way to stay in touch with the graduates and former faculty members who are dispersed throughout the state is through social media.

The location of our college is in a rural area. As a result, the alumni's financial contribution is minimal. Nonetheless, the college receives non-financial contributions from the alumni association. The former students are now looked up to by the alumni. Numerous former college students are employed in the public, semi-public, and private sectors.

Due to their exceptional performance in the competitive exams, a number of alumni have been assigned to special positions in a range of government departments. In addition to being excellent role models for current students, alumni are frequently in a position to provide students with helpful advice as they launch their careers.

The college hosts alumni gatherings and solicits their opinions. The institute can improve teaching and learning thanks to these comments. Alumni meetings are held on a regular basis. They talked about how colleges have evolved.
